SWINE TIME - LINE

Day 1

Day 2

Day 14

Day 21/28

Day 40

WEEK 11

WEEK 20: REARING GILT

SOW

WEEK 20: FATTENING PIG

FATTENING PIG FINISHER

DAY 1 – WEANING

→ day 1 - 2

Newborn piglet

- Sow's colostrum:
 - immunity building
 - antibodies

→ day 3 - 14

Piglet Starter

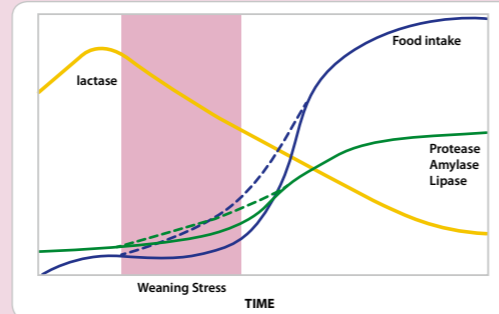

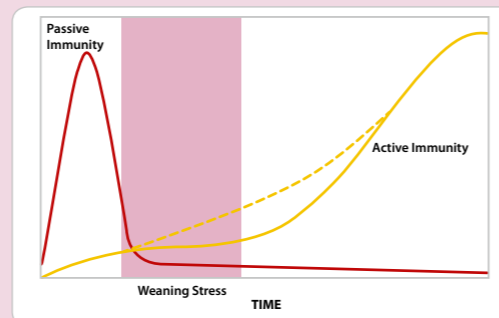

- Sow milk in combination with **PRESTARTER LACTOMASH**:
 - complete mash feed with all necessary lactose
 - easy digestible
 - habituation to solid feed
- Lower weaning stress

→ day 15 - 21/28

Weaning Piglet

- Sow milk in combination with **PRESTARTER MILKYSTRUCS**:
 - complete pellet feed with all necessary lactose
 - further habituation to solid feed
- Lower weaning stress

FATTENING PIG

- Inclusion of standard concentrates and premixes containing extra additives guaranteeing optimal growth:
 - **FATTENING PIG CONCENTRATE 30%**
 - **FATTENING PIG CONCENTRATE 5%**
 - **FATTENING PIG PREMIX 2,5%**
 - **FATTENING PIG PREMIX 0,5%**
 - **FATTENING PIG PREMIX 0,25%**

FATTENING PIG FINISHER

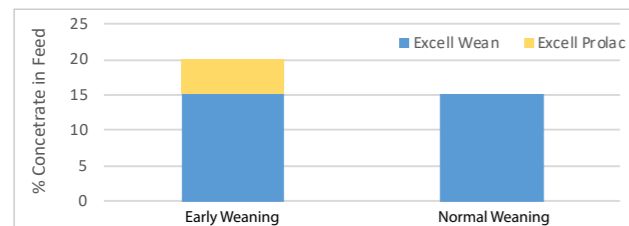

- The same **concentrates** and **premixes** are used for the final feed formulations in this second phase of fattening pigs to meet the recommended nutritional values.

WEANING – DAY 40

3 OPTIONS:

1. Further feeding with **PRESTARTER MILKYSTRUCS**
2. Inclusion of **EXCELL WEAN** and **EXCELL PROLAC**:

→ Flexible ratios for different requirements

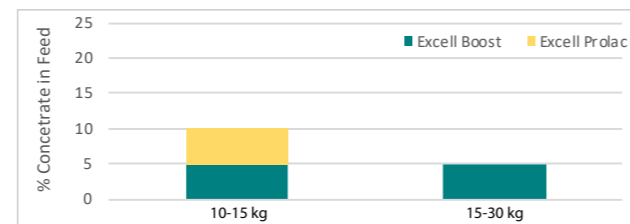

3. Inclusion of standard piglet premixes:

- **PIGLET PREMIX 0,5%**
- **PIGLET PREMIX 0,25%**

WEEK 6 - WEEK 11

2 OPTIONS:

1. Inclusion of **EXCELL BOOST** (and **EXCELL PROLAC**):

→ Flexible ratios for different requirements

2. Inclusion of standard concentrates and premixes

- **PIG STARTER CONCENTRATE 30%**
- **PIG STARTER CONCENTRATE 5%**
- **PIG STARTER PREMIX 2,5%**
- **PIG STARTER PREMIX 0,5%**
- **PIG STARTER PREMIX 0,25%**

REARING GILT

- Inclusion of standard concentrates and premixes containing extra additives guaranteeing optimal growth:
 - **FERTILAC SOW CCT 30%**
 - **FERTILAC SOW CCT 5%**
 - **FERTILAC SOW PREMIX 2,5%**
 - **FERTILAC SOW PREMIX 0,5%**
 - **FERTILAC SOW PREMIX 0,25%**

SOW

- **Gestating sow**
- **Lactating sow**

- Same **concentrates** and **premixes** as for rearing gilts.
- Altered final feed formulations to meet the nutritional values of each different phase.

Intra Toxinbind Xpro™

- High affinity substrate for fungal toxic metabolites
- LOWER TOXINS = MORE PROFIT
- Further information: see **ADD-OPTIMALS™**
